

Art Knowledge Map - Spring 2 – Colour creations

Primary Colours

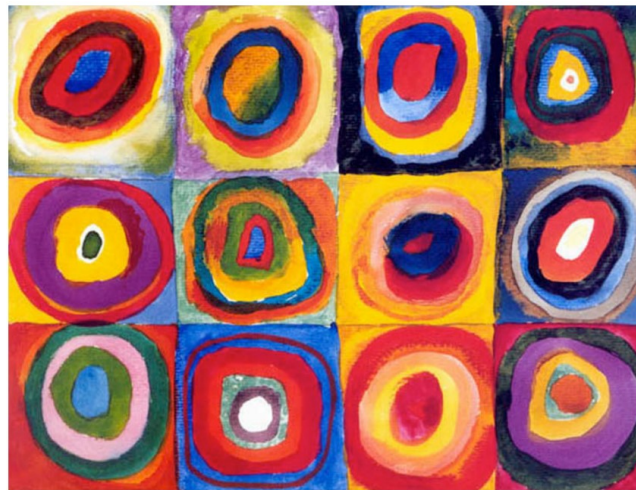

Primary and Secondary Colours

Primary, Secondary and Tertiary Colours

Colour wheels

Kandinsky– Colour studies: squares with concentric circles.

Vocabulary

1	Colours	colour is what makes things look different from each other. There are many colours e.g. red, yellow, blue, pink, orange, green...
2	Primary colours	The primary colours are red, yellow and blue. They cannot be made by mixing other colours together.
3	Secondary colours	when we mix equal parts of two primary colours, we either get green, orange or purple. These colours that we get by mixing two primary colours are secondary colours.
4	Shade	A shade is where an artist adds black to a colour to darken it down.
5	Colour mixing	By mixing primary colours together, you create new colours: Orange, Purple and Green. The exact tone or hue of each secondary colour varies according to the amounts of primary colours used; this means one purple can look different to the next purple.
6	Kandinsky	Wassily Kandinsky was born in 1866 in Moscow, Russia and died in 1944. He is well-known for creating abstract. paintings. Abstract art uses shapes, lines and colours but doesn't need to look realistic close realistic
7	Sweeping	The movement's most expressive approach, action painting, was characterized by a loose, rapid, dynamic, or forceful handling of paint.
